

2013 Oklahoma QSO Party Results

by Connie Marshall, K5CM

After the first few hours Saturday morning Pam and I were thinking of renaming the contest "The Russians are Coming The Russians are Coming" Several said they were having trouble copying the mobiles thru the Eu DX. Maybe we can schedule things a little later next year.

Conditions were good on Saturday, but a fast-moving CME that left the sun on March 15th impacted the Earth's magnetic field at 0600 UT on March 17th (Sunday morning). This caused a moderately strong geomagnetic storm. Aurora could be seen as far south as Colorado. This put the brakes on conditions for Sunday, although many contacts were still to be had.

Despite the magnetic storm Gene, NT2A and John, N6MU managed an impressive 77 county sweep. Sweeps don't just happen in a state QSO party. Lots of chair time is required. Just being away from the radio for a few minutes at the wrong time will cost you the sweep. Congrats to you both.

IN STATE RESULTS

Fixed SO-HP

Dave, W5CW operating from K5CM's station in Muskogee County, was the over all winner of the OKQP with 1038 Q's and 129 mults for a score of 291,831. Dave took full advantage of the good conditions on Saturday morning working Eu and other DX stations. As with last year most of Dave's contacts came on 20 meter SSB.
